Siva temples see heavy rush

Hyderabad: Devotees thronged all the temples, especially Shiv-alayas, since early morning with the commencement of the auspicious month of Karthika today. As per the traditional Telugu calendar, the Karthika masam is the eighth month is considered very sacred and observed with various rituals by the devout Hindus in both the Telugu States of Telangana and Andhra Pradesh from October 31 to November 29 this year. During the holy month, Mondays are considered very auspicious and devotees perform special poojas in Lord Siva temples.

Khammam in grip of dengue scare

ADEPU MAHENDER

Khammam: Whether it was due to dengue fever or not, the grim reality is that 21 families in Bonakal mandal have been bereaved. While the Opposition parties blame the government for not taking measures to ensure public health, the administration firmly disabliges saying that the deaths were caused by various reasons, but not dengue.

Of the 5,344 fever cases reported in the mandal where the population is 47,848 since August, 321 of them are suffering from Elisa and the rest are due to viral fevers, according to official figures. With eight deaths, Ravinuthala is the worst affected among 14 villages where the malady is rampant.

The authorities claim that they have no information of dengue deaths from the State-run hospitals. They contend, despite their campaign that there is no specific medication for treatment of dengue infection that people are panic-stricken as soon as they were diagnosed with low platelet count.

Khammam DMO A Rambabu, who is in-charge of vector-borne diseases,

As 21 deaths are reported due to various reasons including dengue, people in district are panic-stricken

speaking to The Hans India, said, "Due to lack of awareness that low platelet count may not necessarily indicate dengue, people are rushing to private hospitals. The normal range of platelets is 1.5 lakh to 4.5 lakh per micro-litre of blood. The fact is that even a common cold or viral infection can also reduce the platelet count. Patient can survive even the count goes down to 20,000 or even lower."

There is no need to frighten and run to hospitals. All that the patient needed was symptomatic medication besides good fluid intake, he said, referring to the use of contra medication like steroids and painkillers prescribed by registered medical practitioners (RMPs), thus inviting more complications.

The flooded hospitals also are creating havoc as Mosquito Aedes (also known as tiger mosquito) transmitting the virus to other patients.

The authorities say that they have been spraying pyrethrum (to kill adult mosquitoes) and temephos (a larvicide) in all dengue-affected vil-

lages, besides explaining the fever protocol to the RMP doctors.

Meanwhile, dengue is also rampant in Konijeral PHC area with 40 positive cases, especially, Singabhapalam village where the number of sufferers is 30. Other figures are: Manchukonda PHC area 30 positives cases, Wyra 25, M Venkatayapalem 40, Tallada 25, Nelakondapalli 30, Kusumanchi six, Mudigonda 10 and Khammam town 25.

"It's gross negligence on part of the State government though the people are falling like nine pins owing to spread of dengue. The prevalence of dengue has assumed epidemic proportions afflicting thousands of people owing to prevailing insanitary conditions in the region," Telangana Pradesh Congress Committee (TPCC) working president Mallu Bhatti Vikramarka said, blaming the rulers for their failure to release funds to gram panchayats. It may be noted here that Bonakal mandal is in Madhira Assembly constituency where Bhatti represents.

Inoperative PF accounts to be paid interest

Hyderabad: The government is all set to issue a notification authorising retirement fund body EPFO to pay 8.8 per cent interest to "inoperative" accounts, Union Labour Minister of State for Labour Bandaru Dattatreya said on Monday.

"The inoperative (Employee Provident Fund) accounts are not being paid interest since 2011. As per the instructions given by the Prime Minister

safe investment also. If not today, tomorrow we will have to pay to the claimant. So there is nothing called unclaimed," a senior official of the Ministry had earlier said. In case of EPF, if there is no contribution paid during the last 36 months, then that account is classified as "inoperative," the official added. "We are in the process of identifying multiple accounts held by individuals. Once that
